

Transport Bill Book

Duplicate · 100 bills · serially numbered · goods transport agency invoice

This file contains the first two serials (001 and 002) as a proof, with all 2 copies of each. To make the full book of 100:

1. Take this file to any local press and ask for a duplicate book, 100 sets, serially numbered from 001.
 2. Ask for carbon interleaving so one pen stroke marks all 2 copies.
 3. Give them your business name, address and GSTIN for the letterhead block.
 4. Standard binding is 100 sets per book, top-stapled with a card back.
- Keep the sequence unbroken.** A missing serial is the single thing most likely to be questioned at a check post or in an audit. If a challan is spoiled, write CANCELLED across all copies and leave them in the book.

COPIES IN EACH SET
1. Original for Recipient · 2. Duplicate — Office copy
